

CELEBRATING 30 YEARS OF DESIGN IN AOTEAROA NEW ZEALAND

BUCHAN

Kia Ora

Buchan is celebrating 30 years of design in Aotearoa New Zealand this year.

Over the last three decades, Buchan's designs have become integral to life in New Zealand – from the award-winning Christchurch Art Gallery and Re:START 'container mall', The Hub at Hornby, Northwest Mall, Brickworks and Sylvia Park upgrade, to the recently opened Invercargill Central and T-Galleria and luxury Horizon apartments, the new Mangawhai town centre, The Landing Wigram Skies, and the highly anticipated Five Mile precinct in Queenstown. These are but a few of our successful projects.

We are proud of our local story, and our global history as an international design firm of more than 130 years.

Today, Buchan employs more than 40 talented individuals in architecture, masterplanning, interiors and experiential design across our Ōtautahi Christchurch and Tāmaki Makaurau Auckland Studios.

More than a design firm, we are whanau, loyal and proud of what we do. And we thank you, our valued clients, industry partners and colleagues, for sharing in this journey and success.
